RePath

For experienced professionals in Malaysia

What comes next?

Changing careers
Growing in your current role
Returning to work

10 years

of experience to build on

A direction, a skill gap, and a next action

RePath AI / Team Gravity / Wu Tong and Liang Yiyan

Video 0:00 - 0:30

Experience into a confirmed profile

One project

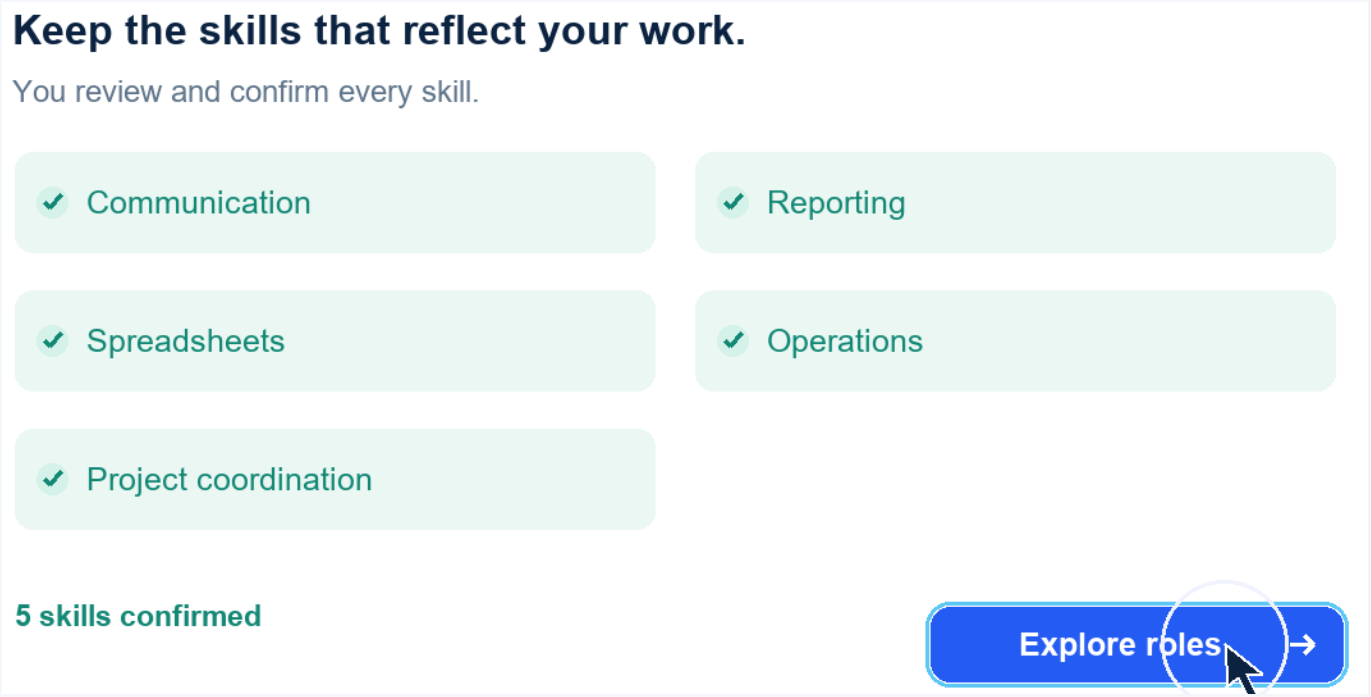

What you did and delivered

Your situation

Prepare while employed

Confirmed skills

Skills you review and confirm

Alex Tan is a fictional user with 10 years in operations and marketing.

Video 0:30 - 1:10

Career directions and visible gaps

4 / 5

Required skills covered in the prototype mapping

Management Analyst

Data visualisation

Why this fits your experience

- ✓ You understand business processes
- ✓ You already work with reports and spreadsheets
- ✓ You can explain findings to other people

8 directions, with explanations

A fit score guides exploration. It is not a hiring probability.

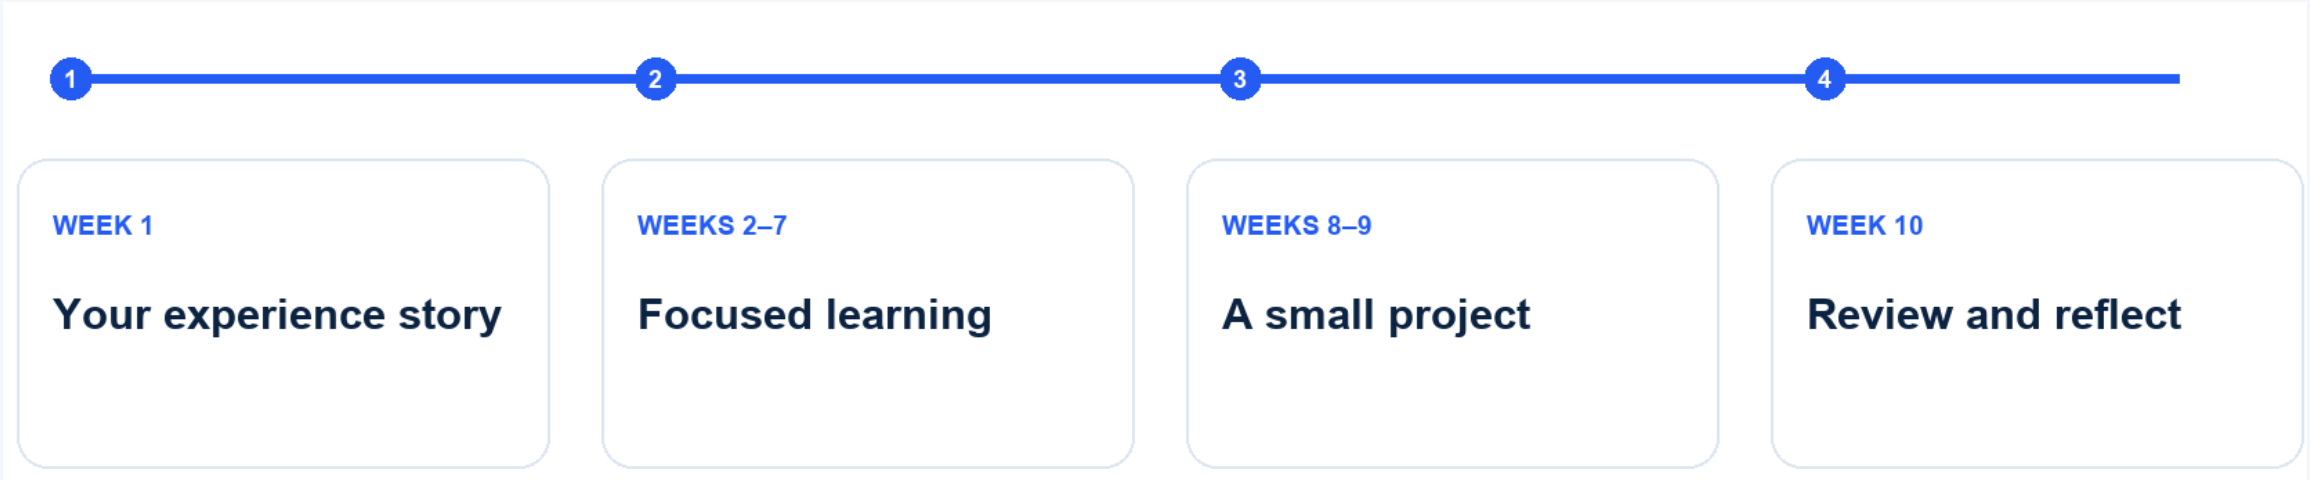

Video 1:10 - 1:55

A plan that fits the week

4 hours
each week

10 weeks
estimated pathway

40 hours
including practice

A one-page visual report with three business insights and a recommendation

Fictional profile. Learning time includes practice and remains an estimate.
Video 1:55 - 2:35

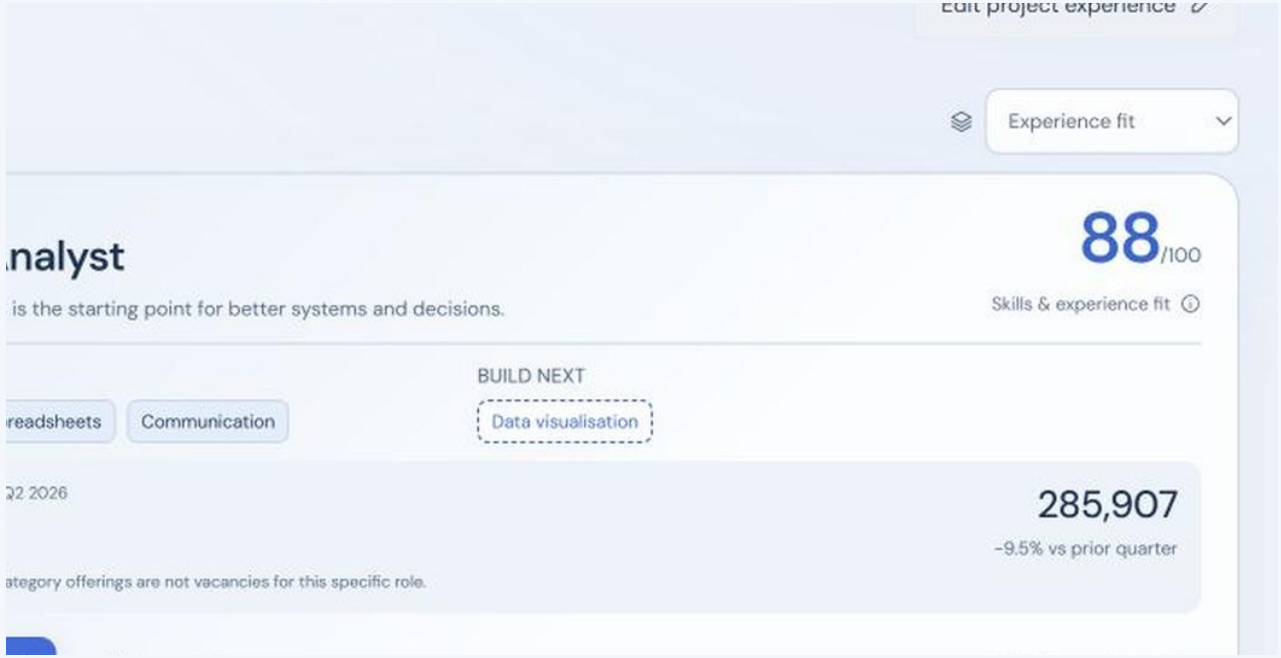

Working prototype demonstration

User confirms skills. The running app generates directions and a saved plan.

88

Initial fit reference

4 / 5 skills covered
4 hours / week
10-week saved plan

Video 2:35 - 3:30

Evidence and the final AI layer

DOSM

Dated Malaysian hiring observations

O*NET 31.0

Occupational tasks and curated mapping

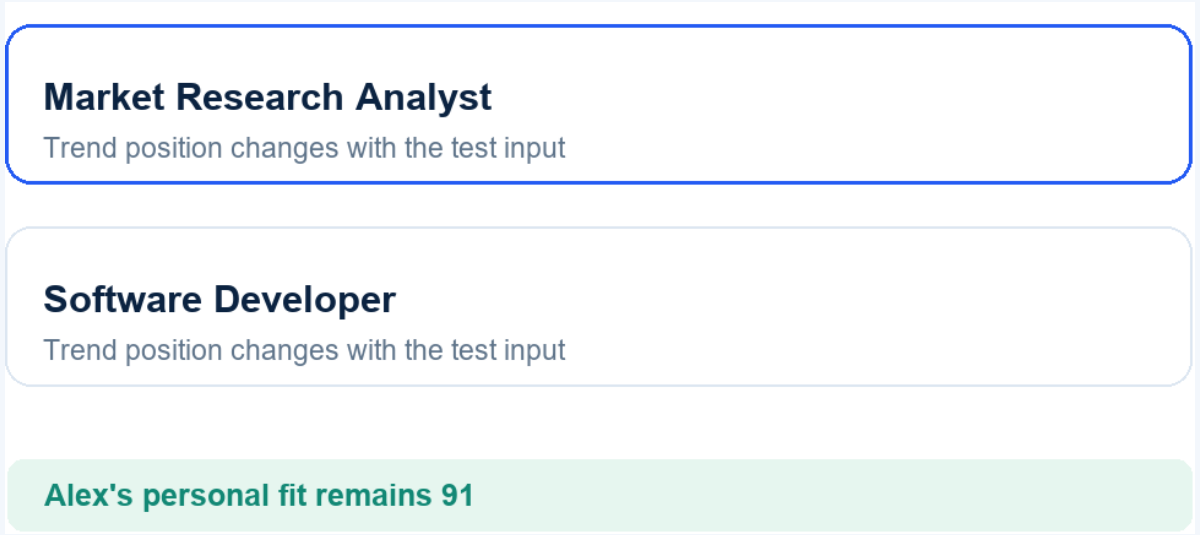

WEF 2025

Long-term employment context

arXiv RSS

Refreshable research, separate from demand

Synthetic update changes market order

Sensitivity: 91 moderate, 87 faster AI

Planned: review dated signals against tasks, then explain skill outlooks and scenarios

Video 3:30 - 4:45

Final delivery and impact

Final build priorities

Skill outlooks from evidence
Scenario explanations
SDG links per role and skill

Proposed pilot

10 users, measured before and after
Role, gap and next action

Target: +20 percentage points

Baseline collection planned
Also review task completion
and work quality

Preliminary: core journey works. Final: complete all six required features.

Video 4:45 - 5:30

RePath

SDG contribution in Alex's journey

4.4

Data visualisation practice

Builds relevant skills for employment

8.2

Business process improvement

Intended contribution to productivity

10.2

Free access and three languages

Supports our inclusion goal

Intended contributions. Detailed role and skill target links are part of the final build.
